the natural way to sleep

We've developed three Dunlopillo GO mattresses; Energise, Exceed and Excel. Each mattress has a different feel and offered in a range of sizes to ensure there's a perfect model to suit you and your unique body.

Whether you are a fitness enthusiast, have a stressful job, or just want a natural energy boost, Dunlopillo GO's advanced sleep system ensures you always wake up feeling refreshed and energised.

### Pressure relieving

Through its unrivalled elasticity, Dunlopillo latex provides instant pressure relief and encourages a healthy blood supply to your muscles so you awake feeling refreshed and revitalised.

### Breathable

Dunlopillo latex's open cell structure is made up of millions of interconnecting microscopic air bubbles, which not only ensures a very supportive mattress, but also promotes constant air circulation. Natural movement during the night helps ventilate the mattress and keeps the bed at a constant and comfortable temperature.

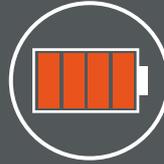

### Lasting performance

Dunlopillo latex mattresses are designed to deliver long lasting performance by utilising their natural resilience to hold their shape and remain durable for years to come.

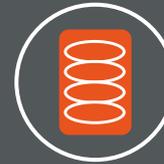

### Perfect support

Dunlopillo latex is unique in the way it supports the body, adapting to individual weight, shape and size to ensure correct spinal alignment for everyone.

### Fully recharged

The deep stage of sleep is important for body repair and maintenance. Instantly responsive latex allows easy movement during sleep reducing waking from disturbance. This gives the body time to fully recharge from the day's activities so you are ready to take on the new day ahead.

### Pocket springs

Individually encased in their own fabric pocket, Dunlopillo's advanced pocket spring foundation contours to your body for perfect support.

### Maintenance free

Designed to make life easier, Dunlopillo mattresses are completely maintenance free. Once on your base the mattress doesn't need to be moved again - no need to rotate or flip.

### Health and wellbeing

Dunlopillo natural latex has anti-allergenic, anti-bacterial and anti-microbial properties.

### 8 Year guarantee

For total peace of mind, your Dunlopillo GO mattress is guaranteed for 8 years.

energise mattress shown with vital headboard and ottoman divan in atomic fabric
